DETAILED ACTION

Receipt is acknowledged of the amendment filed 03/26/2008.

The rejection under 102(b) and the objection to dependent claims is hereby withdrawn in view of applicant's amendment.

The following are cited after a supplemental review for patentability:

Claims 21 -24 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim 21 depends upon itself. Correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1615

Claims 16, 19-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims set out "collagen, collagen derivatives" and then later composites of collagen and collagen derivatives". The latter would appear to be encompassed by the term "collagen derivatives" on its own. Therefore, the metes and bounds of the claimed Markush Group are indefinite. Clarification is requested. It is suggested the latter terms referring to the composites be deleted.

Correction of the misnumbered claims and clarification of the above cited issue would place the application in condition for allowance.
